## Antioch Is Stage for Huge Victory Program Thurs.

### County-wide Celebration Will Boost Civilian Defense Effort

Lake county's reply to the Axis challenge will be heard here next Thursday, July 16, when the first of three county-wide victory celebrations will be staged on Main street, which will be closed from Orchard to Lake from 7 p. m. to midnight. The street will be the huge stage for entertainment following the victory parade, where music, bands, singers, dancers and speakers will entertain the vast throng expected to be in attendance. Dancing will follow the entertainment which is to be provided for the most part by celebrities.

In the parade at 7 o'clock there will be two platoons of the Illinois Reserve Militia from Waukegan under the command of Major Bradford West, as well as other military units that have been invited to attend, including the Great Lakes drum and bugle corps of 56 pieces with colors and color guard. Every community in the county is invited to participate in the parade.

### Main Street, Mammoth Stage

The entertainment will be presented from a stage on Main street following the parade, and the committee is still lining up talent to appear on the program, including singers, dancers, speakers, music and novelty numbers, which will be presented by George S. McLaughlin, prominent Waukegan attorney and corporation counsel for the village of Antioch. Dancing on Main street will follow the program.

### Radio Headliners to Appear

Don McNeil, nationally famous master of ceremonies on the NBC Breakfast Club of the Air, and Jack Baker, NBC singer who also appears on the Breakfast club, will appear on the program Thursday night.

### Headquarters for War Bond and Stamp Sales

Headquarters for war bond and stamp sales will be in the lobbies of the two Antioch banks, and will be under the charge of H. A. Smith, cashier of the First National.

### The Antioch Legion which is staging its annual carnival starting on Friday, has kindly offered the Victory Day committee the use of all facilities that are in readiness on the water tower lot.

Other members of the committee who are co-operating with Chairman Otto S. Klass, are: George Wagner, program; Commander Roman Vos, parade; R. E. Clabaugh, publicity; Cletus Vos, dance; Robert King, decorations; and Fire Chief Louis Van Patten, safety.

## Hold Conference

### Today on Rent Issue

An informal conference on maximum rent regulations is being held at 544 p. m. today in circuit court room of the county building in Waukegan. Fifty-one justices of the peace and 20 police magistrates were requested to attend.

Acting chief rent attorney, John McCarthy, will appear before the conference, it was announced by Bernard Wolfe, agent for the OPA with headquarters in the city hall.

Meanwhile, temporary rent headquarters have been set up in the Waukegan city hall as a service to both landlords and tenants. Later a district administrator will be appointed. At present the office is being conducted by a number of volunteers, consisting of attorneys, real estate men, and others who have gained a working knowledge of the law which became effective on July 1.

## Fisherman Rescues

### Girl in Channel Lake

Rescued by a fisherman after she had become exhausted while swimming in Channel lake, Miss Evelyn Smith, 16, of Chicago, was given first aid treatment for shock late Tuesday afternoon and removed to her summer home in Fox Lake by members of the Antioch Rescue squad.

Miss Smith who is spending her vacation at Fox Lake came with a group of friends for a swim in Channel lake. Apparently she became exhausted while 200 feet from shore and called for help. A fisherman in a boat near by picked her up and rowed to shore. She was in a state of collapse and the rescue crew was summoned. She was taken to Fox Lake where a doctor was summoned to administer her treatment for shock.

## Antioch Assessment Roll is Published

The assessment roll for the Town of Antioch as fixed by the assessor appears on pages 6 and 7 of today's edition of the Antioch News.

Every resident of the township, which includes the village of Antioch, should check the amount of his assessment, and any property owner who objects to the amount of his valuation should file formal complaint with the Board of Review within ten days from the date of publication.

## Voters Permanent Registration Will Aid Honest Elections

Honest voting at the polls will be tremendously helped by the Permanent Registration act which went into effect June 8, 1942. There is so much detail work connected with the registration of every voting citizen that the county clerk Jay D. Morse urges the voters of Lake county to register as soon as possible to lighten the great burden put on his office staff.

This Act vitally concerns every voter in the county and by registering now a voter need never register again unless he leaves the county, remarries or changes his name. Legally qualified voters are those men and women who have reached the age of 21 years by the next election are native born or naturalized citizens and who have lived in the State of Illinois one year in the county ninety days and in the precinct thirty days.

Each voter must register in person, signing two cards in the presence of a deputy registrar, one card being kept on file at the county clerk's office, and the other being sent to the voter's precinct on election day. Both cards must have the following information on them, and these facts must be sworn to by the voter before the authorized deputy: full name, legal residence, term of residence in the State, County and Precinct, country of birth, citizenship (native born or naturalized). In case the applicant is a naturalized citizen he must have papers giving the court, place and date of naturalization. Voters who are unable to sign their names may affix a mark to the affidavit, and the officer empowered to give the registration oath will write a detailed description of the applicant in the space provided, as well as record father's first name, from what address the applicant last registered and reason for inability to sign name.

At election time the duplicate card will be on file in the precinct in which the voter will cast his vote, and he will be required to sign his name before voting. In case the signature at election time does not correspond to that of the signature in the County Clerk's file, his vote can be challenged and will not be accepted until the signature is proved to be correct. One can readily see how difficult it will be to cast fraudulent votes under this system.

It is also understandable what a mass of detail work will be necessary to obtain in duplicate these registration cards for all the voters in Lake county. Hence voters are urged to be helpful citizens by registering at the earliest possible date. One can register at the County Clerk's office in Waukegan any week day from 9:00 A. M. until 5:00 P. M., and Saturdays until noon. Some time in the near future County Clerk Morse is planning for registration days in your own town.

## Heart Attack Fatal to Petite Lake Woman

Mrs. William J. Parrett, 67, of Petite Lake died suddenly Tuesday at 8:30 a. m. following a heart attack. The Antioch Rescue squad summoned to the home found the woman dead when they arrived.

Mr. and Mrs. Parrett, who live on Chicago's south side, had their summer home at Petite Lake for the past 16 years.

Funeral services will be held at the Chapel, 851 East 75th street, Friday, July 10 at 2 o'clock p. m. under the auspices of Pilgrim chapter, No. 804, Order Eastern Star, Internment Cedar Park Cemetery, Chicago. She leaves her husband and several nieces and nephews.

## Woman Hooks 11-lb. Pike in Fox Lake

While male fishermen were fussing around with expensive equipment and fancy baits last Sunday, a woman with a simple line and with a lowly anglerworm for bait, hooked a northern pike at Indian Point. The fish weighed 11 1/2 pounds. The lucky angler, who perhaps has scored the 1942 record is Mrs. F. H. Soumerai, a resident of Indian Point.

## THRILLS AND FUN ARE PROMISED AT LEGION CARNIVAL

### Three-Day Event Will Open Friday Eve'g, June 17; Closes Sunday

The committee in charge of the American Legion Carnival today reported that everything is in readiness for the thrill-packed three-day event to be held in Antioch's water tower park next week end, Friday, Saturday and Sunday, July 17, 18 and 19. The event comes on the heels of Antioch's big Victory Day celebration on next Thursday and the entire population of the Lakes area will have the carnival spirit when the Legion's event opens of Friday.

Among the attractions listed are four thrilling rides furnished by Skinner Bros. Amusement company of Crystal Lake; all kinds of games to test skill and compete for prizes; Madame Dorothy Venus, of Chicago, famous seeress who for a nominal fee will peer into the future for you; and the Freed Engraving representative will fix you up with souvenirs made to order.

A bingo game will be operated by the women of the Legion Auxiliary, and will be large enough to accommodate all who wish to compete in this fascinating game. Refreshments also will be under the management of the Auxiliary.

The committee is headed by Commander Roman Vos as general chairman, and his assistants are C. L. Heath, Floyd Horton, Walter Hills and John Horan.

The Antioch Legion has a membership of 118 and truly is a representative community organization. The money raised will be put to worthy purposes, mainly some feature of defense work. The event deserves, and will have the support of all civic minded citizens.

## Economic Problems Are Studied By Rural Families

Farm families of school districts No. 34 and 30 met at the Antioch High School on July 2nd and learned of the government's plan to spread information necessary to help win the war. Four meetings during the year are planned. C. L. Kutil, vocational agriculture instructor, is the leader in this locality. Mrs. C. L. Kutil, president of the Antioch Home Bureau unit, is the co-leader.

The dangers of inflation; fire control and prevention; preservation of garden products, and harvesting and storing of soybeans were the problems discussed.

In summarizing the meeting Kutil urged the local farm families to check themselves on the following points:

1. Pay cash instead of buying on the installment plan.
2. Raise more of our own food and feed.
3. Co-operate cheerfully in rationing of scarce articles.
4. Repair our farm and home equipment and remodel our clothing.
5. Invest regularly in war bonds and stamps.
6. Pay our income and property taxes promptly.
7. Reduce our debts.
8. Spend less for things we do not need now.

Thirty-five meetings were held on the same day throughout Lake county.

## VANDALS VISIT ANTIOCH; THREE YEGGS BEATEN

Lured by the full tills of Antioch merchants following the July 4th holiday, a number of young hoodlums bent on robbery visited this community Sunday night. The ice automats of the Jefferson company were said to have been looted and a number of stores were broken into.

Three of the vandals, later identified as young "hoods" from Highland vicinity, were apprehended here by civilians and were given such a sound beating that they will steer clear of Antioch in the future—that is, if they're smart boys.

Walter Audell and daughter, Joyce, of Chicago spent the holiday weekend with Mr. and Mrs. G. A. Dunlop at Mid-Lakes.

## QUIT YER SHOVIN'

## Defense School for Air Wardens Starts Tonight

A five-week course to train key men in each of the townships under the Lake county civilian defense organization gets under way tonight at the Grayslake Grade school where all of the meetings are to be held.

The faculty of the central school is composed of men who attended the state civilian defense school held recently in Jacksonville. Fred J. Berg, of Antioch, will instruct in the duties and conduct of air wardens; D. D. Gerschell, Grayslake—chemicals and gases; Frank Engles, Winthrop Harbor—blackout and protective concealment; William Sheehan, Mundelein—teaching methods and civilian morale; Alvin Ruesch, Zion—police and fire protection.

Paul King, Lake county co-ordinator, will be present and will preside at the instruction sessions.

Men taking the instruction from Antioch township, and who will assist Mr. Berg at the conclusion of the school are Roman B. Vos, Prin. R. E. Clabaugh, Coach C. A. Wolfenbarger, and Virgil Newlin, Antioch teacher.

## Antioch Doctors May Be Called for Army, Navy Service

### Drs. Berke and Bratrude Summoned to Report for Examinations

Two of Antioch's four physicians and surgeons may be inducted into the medical corps of the United States army within the next 30 days. That is the possibility, according to army orders, however, the local doctors may not actually be inducted for several months, if at all.

Dr. A. N. Berke had his physical examination at Fort Sheridan last Monday, and Dr. A. P. Bratrude, also summoned, for examination the same day, but not examined, was told to report on next Monday for his examination.

The army order states that about a week will be required to complete all of the necessary papers for commissions in the medical corps and that applicants who are accepted should be ready for induction within 30 days from the date the commission is granted. Extension of time also in some cases will be granted to permit doctors to arrange their affairs; the order states. Qualified doctors will enter the service as 1st lieutenants.

Dr. Earl R. Berger, of Ohio, who has been assisting Dr. Berke with his practice here for several weeks, successfully completed all requirements for service in the medical corps five weeks ago and now is awaiting his call. Selections of physicians and surgeons for army and navy service are believed that Dr. D. N. Deering, who saw service in the first world war, will be notified soon. All three of the local doctors are under the age limit of 45 years.

It is believed that in the selection of doctors for army and navy service there will be regard for civilian needs and that no community will be left without adequate medical service.

## County Has No Traffic Deaths Over 4th Holiday

### Eleven Receive Injuries in Crash West of Antioch

For the first time in many years Lake county passed through a Fourth of July holiday period without a fatality due to an automobile accident, but many injuries were reported throughout the county, one on highway 173 just west of Antioch in which 11 persons were injured.

One death occurred in the county. The victim was Gas Jackson, 34, of Waukegan, who was killed Sunday morning when he was struck by a North Shore train at Belvidere street crossing.

No drownings were reported in the county.

### 11 Are Injured Here

Injured most severely of the 11 persons hurt in the crash on Rt. 173 west of Antioch on Saturday afternoon was Marty Lulich, 34, of Chicago, who suffered three broken ribs and a punctured lung. Others injured were:

Mrs. Beulah Lulich, 34, wife of Marty, lacerations about the face, S. Kraska, 20, Chicago, right foot wrenched; Robert Doyle, 21, Chicago, bruises; Steve Markovich, 24, Chicago, cuts and bruises; Anne Borunskas, 22, Chicago, injuries to right shoulder and right knee; Jim Fogo, 52, Richmond, cuts and bruises; his wife Bertha, 44, injuries to right eye and right arm; and Judy Lee Fogo, 2, bruises.

Fogo was driving west on the highway when a car stopped suddenly in front of him. He quickly applied the brakes which locked throwing the car into the path of the other car.

Seven members of the Antioch Rescue squad responded to the call by Deputy Sheriff Wallenwein and Robert Webb who were sent to the scene. The local squad members prepared the victims for removal to St. Theresa hospital.

Rescue squad members who administered first aid to the injured were: Capt. Holbek, Charles Larsen, Geo. Bartlett, Jr., Fred Yates, Henry Quadenfeld, Einar Petersen and Herman Rosing.

## Reach 83% Quota In USO Campaign

### Antioch Collects \$501.13; Seek \$600 Goal by End of Month

Leading all six divisions in the war fund campaign for United Service Organizations in percent of quota, the county towns throughout Cook, Lake and DuPage counties this week had piled up subscriptions totaling \$103,128 to pass their assigned goal by 3 percent, it was announced on Monday by Nicholas J. Conrad chairman.

Antioch's contributions thus far total \$501.13, according to Roman B. Vos, local chairman for the drive in this township. While no further personal solicitations will be made, Vos said, the drive is not closed and those who have not as yet contributed may do so. Receipts for the donations may be had at the State Bank of Antioch, the First National Bank, the Antioch News, or from Chairman Vos, at the Antioch Lumber & Coal company office.

Meanwhile, workers in other divisions were intensifying their effort to produce contributions averaging \$150,000 a week for the remaining four weeks. This amount is necessary, Holman D. Pettibone, general campaign chairman, announced if the \$1,749,432 Chicago district goal is to be realized within the allotted time. The slogan for the drive has been: "You help someone you know when you give to the U. S. O."

## Bert Dean Dies at Silver Lake

Bert Dean, 56, of Silver Lake, a man long active in business and civic affairs of his community, died Saturday afternoon following a short illness. He was a brother of Mrs. Nellie Hayke of Antioch and Mrs. Alfred Smith of Grayslake.

He was born in Spring Grove and later moved to Wilmet, Wis. During his adult life he was active in business and civic affairs. He was clerk of the village board, secretary and treasurer of the Silver Lake fire department, had served as clerk of the school board for several years. He was a member of the Kenosha County Conservation club and Masonic lodge of Wilmet.

## Should We Encourage It?

In these most critical days of our nation when each and every one of us is doing everything in his power to meet the needs of the country, it is confusing and disheartening to see "politics" crop out "as usual" in key places.

Knowingly or unknowingly, the war is being used to promote the doctrine of state socialism under the guise of war emergency. The grandiose billion-dollar Rivers and Harbors Bill, a new high in pork barrel technique, cloaks many pet political projects to put the government into competition with, or to eliminate private enterprise in various fields. Most of the projects would never be finished before the present crisis is past, and would use vast quantities of material and man power now indispensable to maximum war effort.

A renewed drive is on to set up an enlarged Columbia Valley Authority having not only jurisdiction over the government power dams at Bonneville and Grand Coulee, but giving it absolute power of life and death over the existing privately-owned electric utility industry in the Pacific Northwest.

It is a frightening thing to think about. Not because of its effect on the electric industry alone, but because it gives officialism constantly increasing and exclusive powers over the property and affairs of private citizens.

Probably the majority of people do not understand that state socialism is the Hitler philosophy. Should we encourage it here under any guise whatsoever?

## Inventions for Victory

"Never say anything can't be done. Say instead that as yet no way has been found to do it."

That's the advice of a man who knows what he's talking about—a famous inventor and engineer who has given us things like the self-starter and octane gasoline, to mention two of many. According to him, mechanical advances are being made even faster than usual today because of the pressure of war needs. Already we have new devices on our planes and tanks that enable them to

many instances to outperform those made by our enemies. We haven't stopped improving them and our other weapons, either. New war inventions are being produced all the time. More than 45,000 suggestions were sent in to the Patent Office last year by American inventors, and 3,000 of them have been adopted to date. Some of these inventions have to do with new machines, like the outrigger tank that is really a rolling fortress, and the ground strafe airplane with guns in the belly of the plane. Others concern such things as emergency food rations and lightweight armored clothing.

The fast war hastened the development of several new products—the radio, stainless steel, and dozens of new alloys and metals. There's no telling yet what things will come out of today's shortages and needs. Necessity is the mother of invention, all right, and the gets in some good ticks in a country like this where inventors are encouraged by industry and by our traditional patent system that has been protecting their rights for more than 150 years.

## What Does Freedom Mean?

The Commercial Appeal of Memphis, Tennessee, on February 28, published a communication from John C. Sheffield of Helena, Arkansas. He raised some points on which the public is becoming more critical each day. In part, he said:

"My son was born while I was in France during the first World War. Today he is a member of the United States Marine Corps. . . . We know he is somewhere in the Pacific. We are anxious about him. Thousands of other parents are like us."

"One of my friends who is a good mechanic with a family to support, went to get a job in a munitions plant. Every day we hear on the radio and read in the newspapers that such men are needed to turn out munitions for the soldiers, sailors and marines. But this man was refused a job until he could get a union card. He could not get a union card because he did not have money enough to buy one."

"Why can't a free-born American citizen get a job in a plant where the government needs workers, without having to pay tribute to a high-powered labor leader?"

Mr. Sheffield, you have asked a question that millions of Americans are asking today. Why can't a man get a job in an industry producing war equipment with taxpayers' money, without paying initiation fees and monthly dues? What answer is there to that question? How can such a situation be permitted to exist in a free country? What do constitutional rights mean when a man cannot get work without paying private organizations for the privilege?

ONE-TWO-THREE-FOUR-FIVE-SUGGESTIONS

...to help you make better use of your NEW Telephone Directory

WE TRY to make your telephone directory accurate and complete. These five suggestions, if followed, will increase its usefulness.

1 Be sure to discard your OLD telephone directory if it was not collected when the new one was delivered. (Don't destroy it—turn it over with other waste paper to your regular collector.)

2 If you have a memo list of numbers called frequently, verify these numbers now by looking in your NEW directory.

3 Always consult the directory when not sure of the number.

Calling from memory is a common cause of wrong numbers.

4 Look in your directory—don't ask "information" for numbers listed there. This avoids making two calls instead of one.

5 Use the "Classified" section (yellow pages in most directories) to locate wanted products, services or professional help—especially important now that substitutes must be found.

## LAKE VILLA

The Woman's Society of Christian Service will meet on Wednesday afternoon, July 15, with Mrs. Pedersen at her home on Oak Knoll Drive, and Mrs. McGlashan will be assistant hostess. Visitors are very welcome.

The W. S. C. S. is asking all the women of the community to set aside Thursday, July 30, to attend a card and luncheon party at the village hall in connection with the annual summer sale to be held that afternoon. It would be a very good idea to get some of these attractive articles to put aside as Christmas gifts, so remember the date, Thursday afternoon, July 30.

Mrs. John Meyer left this week for Poughkeepsie, N. Y., to visit her mother and sisters there.

Oak Knoll subdivision is a very active place these days, as many of the summer residents have opened their summer homes there. Among them are the Albrecht, the Costigan and Marshall families, who were all out for the recent holidays, and many remained.

Miss Mary McGlashan of Chicago spent Saturday and Sunday with her parents, Mr. and Mrs. A. McGlashan.

Mrs. George Mosby was a Chicago visitor last Thursday.

Mr. and Mrs. Clare Sommer and Mr. and Mrs. Jerry DeVorek and son, all of Chicago, were guests of their aunt, Mrs. Pedersen, last Sunday.

Mr. and Mrs. Ray Kerr, Mrs. Milligan and friends of Joliet, were guests of Mr. and Mrs. James Kerr from Saturday until Tuesday, when they all went on to Three Lakes, Wis., for a time. The George Mitchell family of Chicago spent the week-end holiday with their parents, the James Kerrs.

The carnival season has begun and Crooked Lake Oaks held their yearly celebration over the Fourth. The Lake Villa firemen will hold their carnival over July 31-Aug. 1 and 2.

Mrs. Charles Hamlin entertained the Sewing club at a luncheon at her home Tuesday afternoon this week and the ladies tied a comforter for the coming summer sale of W. S. C. S.

Huge baskets of beautiful Madonna lilies filled the church with their wonderful fragrance at the church service last Sunday morning and their beauty added much to the appearance of the altar. They were the gift of E. J. Lehmann, O. W. Lehmann and Mrs. Lehr in memory of their sister, Miss

## Need a New Car? then-better get it!

Think things THROUGH on buying a new car! If you are Eligible under Newly Liberalized Rules it's Smart to BUY NOW! And here's why!

The Government wants us all to save gasoline.

The Government wants us to save rubber.

The Government also wants to make most efficient use of transportation facilities now available—including cars now built and ready for sale.

You do not help the country by continuing to "get along" on a car no longer fully efficient, safe or dependably able to serve you in any necessary use.

If you can qualify under latest rationing rules, you are recognized as an essential driver.

As such, you are not only entitled to your share of available gasoline and rubber, but are in reality expected to make the best use of them.

Your Buick dealer can show you that you can more efficiently do this in a brand-new, gas-thrifty, solidly dependable new 1942 Buick than in an older car which may have seen better days.

So before jumping at conclusions, get the whole story on new-car buying. Drop in on your Buick dealer for full details. He is at your service—any time.

If you're eligible to buy—

## Training for Victory

By Rufus T. Strohm

IN the last world war two civilian workers were needed for every man at the front. This left five men free for non-war industry and commerce. In this war it is estimated that every man in the armed services must be backed up by at least seven civilian war industry.

That is the ratio used in authoritative circles. For every man in the armed services, seven must be working at machines in the shipyards, on the farms, and in the offices.

An army officer has said that if one could fire a 50-caliber gun for one hour steadily, the cost for ammunition per hour would be \$5,015, or the productive labor at \$1 per hour of 5,000 men.

These statements give some idea of the tremendous job confronting the industrial workers of America. This is a war of production. Production can be expected only by skilled men using highly efficient machines.

It took the automobile industry 25 years to reach an annual volume of three and one-half billion dollars. In two years, or slightly more, the nation is expecting the aircraft industry to produce at the rate of five billion dollars.

No other nation in the world could hope to attain the production goal set for vital war industries. It is the supreme challenge to a democratic form of government—the challenge is to the self-governing worker. It is up to the individual.

## METHODIST CHURCH

Antioch, Illinois

A large and appreciative audience greeted the pastor last Sunday for the first service of his sixth year as leader of Antioch Methodist. The emphasis of the address was, "With the entire human family suffering from the effects of this war, with the foundations of civilization crumbling under our feet, with the increased impotence of all things material, and with men and women everywhere seeking for definite and abiding security, the need of divine strength and wisdom is greater than ever in the history of man. These are of vital importance in winning this, the world's greatest conflict. They are imperative if a just and enduring peace is to be negotiated."

At the close of the service the pastor invited the congregation to move forward around the altar for prayer and rededication of time, and talents, and earthly stores of body and soul, to God for the building of His kingdom, the strengthening of His church, and the enrichment of personal life. Every person in the house responded without hesitation. Thus, all who were present put themselves on record as "all-out" for Christ and His church, and for the strengthening and widening of the influence of the local church.

The first business meeting of the year was on Wednesday evening of this week. Ten members were present. Plans for the year's work were discussed and a committee raised to collaborate with the pastor in formulating a definite program of activity and advance covering from one to five years.

Warren C. Hendee, Minister.

During this training, the new recruit will be given an aptitude test to determine whether he will be given further specialized training at one of the Navy's many service schools, or assigned to active duty at sea or some other naval station.

### Continuous Salvage Campaign Is Carried on at Wright Field

From the Dayton (Ohio) Daily News the readers learn what is being done at Wright Field to salvage materials for defense. Under the date of July 1 that paper printed the following which appeared with several pictures, one of Major L. D. Powles, former Antioch alderman, who is now post quartermaster at Wright Field.

Says the Dayton News: "There is a question hanging from the lips of many persons these days when the entire American population is searching high and low for every bit of scrap rubber and metal to contribute to the war effort."

That question is "What are the hundreds of government agencies doing to salvage materials?" Charges have been heard that the government is the most wasteful of all industries.

The answer to this question was sought at the government's chief army air force experimental station, Wright Field, and these are some of the answers that officials there have produced.

First long before the general populace made any concentrated attempt at salvage work, the quartermaster's corps in the army and at Wright Field were carrying on a continuous salvage campaign.

Second, the salvage collections at most army depots compare favorably with those in private industry; however, it is pointed out that at Wright Field, where only experimental work is carried out the materials to be salvaged are necessarily small. This is because the laboratories are engaged in small-scale work—not in mass production.

The salvage operations at the field are as at other army stations, under the direction of the quartermaster's office. Maj. Laurel D. Powles, post quartermaster at Wright Field, is in charge there.

Over a six month period here are some of the scrap results as compiled by Maj. Powles:

Rubber ..... 3,500 pounds  
Iron ..... 250,000 pounds  
Aluminum ..... 25,000 pounds  
In addition to the above there were light bulbs; 150 batteries and an uncounted number of steel drums which can be reused.

This scrap is gathered from every station on the field at regular intervals and is taken to a central point where it is sorted as to type. For instance there are piles of rubber (tires, etc.); tin cans and containers; aluminum and other groups of miscellaneous scrap which can not be classified in one grouping because of its quality.

After the scrap is sorted it is baled and offered for sale to the highest bidders. Rubber is sorted and sold rapidly at present Maj. Powles pointed out because of its vital role in the present war effort.

### Training for Victory

By Rufus T. Strohm

Dean, International  
Correspondence Schools

NOT only representatives of management but individual workers should be guided by comments made recently by Paul V. McNutt, head of the new Man Power Commission. He said:

"For every skilled tool designer now available, we need fifty-one. For every tool maker now available, we need twenty-five. For every machine tool now available, we need twenty-two, and so on down a long list of key jobs."

Mr. McNutt said that 17,500,000 new workers must join war plants before the end of 1943, 10,500,000 of them before the end of 1942. He also forecast some form of labor draft when he said "compulsions may be necessary from time to time" to shift these millions into war production.

It is agreed by many authorities that the best training is on the job and in the plant. Study, too, should be directly related to the job.

Most of the required workers can not be trained in a few weeks or months. They will be taught manipulative skills. And many of them can and should qualify for better paying jobs as the result of intensive training supplemented by study.

You Can Be Patriotic—  
and save money, too!—by

## 4 STEEL FACTS in one minute

### Dam Has Giant

"Sink Stoppers"  
Welded steel spheres 18 feet in diameter check the flow of water in the penstocks of the Grand Coulee dam.

### Steel Payrolls Ten Times Dividend Total

Employees of steel companies received \$1,679,000,000 in payrolls in 1941, while dividends to shareholders amounted to \$167,000,000.

### Stainless Steel Cooks Navy Fliers' Meals

Pressure cookers of stainless steel are used to prepare food for crews of U. S. Navy patrol planes.

### Gibraltar Once Used A Made-In-America Chain

Part of the iron chain used in the Revolutionary War to bar the Hudson River at Anthony's Nose was captured by the English in 1777 and sent to Gibraltar to protect shipping of the Moles.

Washington Became Capital  
The City of Washington became the capital of the United States less than a year after the death of George Washington, December 14, 1799.

Hogs Immunized  
More than 100,000 hogs have been successfully immunized with a new hog-cholera vaccine.

April Birthstone  
The diamond is the April birthstone.

Want a Ride?  
An airplane traveling 105 miles an hour would take 105 years to reach the sun, says a London statistician.

For a Bale  
Although the average bale of cotton weighs about 500 pounds, it is necessary to gin about 1,300 pounds of cotton to make it.

Worth Their Weight  
For each dozen eggs produced, a hen will consume about seven pounds of feed.

Many Kinds of Vehicles  
More than 1,500 different makes of electric, steam and internal-combustion passenger cars have been built and marketed in the United States.

Profused Blooming Flower  
The poppy anemone, scarlet, blue, gold and white, was probably the most profused blooming flower of the field in Biblical Palestine, a botanist recently declared.

Peanut Oil Industry  
The processing of peanut oil is one of the principal industries of Canton, China, there being 45 small peanut oil refineries there.

Bird Fuel Economy  
Birds are a good example of fuel economy. Two ounces of fuel in the form of body fat is enough to send a bird over a 2,400 mile course.

Particular Bird  
The ibis, sacred bird of the Egyptians, is extremely selective in its choice of food and water, and natives will not touch food or water that it has rejected.

Tapir  
The tapir, chiefly a nocturnal animal, shy and gentle, is the nearest living ally of the horse and rhinoceros.

## How to arrange food in your Refrigerator

Pin this helpful reminder near your refrigerator

1. Frozen foods, frozen desserts.  
Put them into the freezer itself. Remove ice cube trays if necessary.

2. Milk and beverages.  
Put them at the top, beside the freezer—but do not allow bottles to touch freezer.

3. Meat and fish.  
In the meat-keeper if you have one, or right under the freezer in the correct chilling tray, covered loosely with wax paper.

4. Butter, custards and puddings.  
Will be well protected here in the upper middle section.

5. Salads, desserts, eggs and leftovers.  
The lower section is best. Leftovers should be covered.

6. Vegetables, most fruits.  
These should be put into vegetable crisper or air-tight bag, except tomatoes.

7. Berries, grapes, melons.  
The bottom of the refrigerator is the place for these.

Different kinds of foods require different degrees of temperature and humidity. All you need do is put the food in the right places as indicated above.

Not all foods need be kept in your refrigerator, but probably more than you have been placing there. For example, bread will stay fresh days longer if kept in the refrigerator (lower section).

Shelled nuts and chocolate keep better, too. Bananas should never be put in the refrigerator. And such items as mayonnaise, catsup, pickles and olives need not take up this valuable space.

To properly store and keep perishable vegetables, wash and skin off all surplus material before placing them in the crisper.
